Sir:

In the matter of the above-identified patent (US7,089,342B2), it is respectfully requested, in accordance with the provisions of 35 USC §254 and 37 CFR §1.323, that a Certificate of Correction for applicants mistake be issued to correct the errors noted on the attached Form PTO/SB/44, which clarify and correct ambiguities in the listing, in the Cross Reference to Related Application in column 1 of the patent, of the prior filed copending applications by which are identified in accordance with 37 CFR §1.78, and also to add the listed prior applications to the listing of Related US Application Data in the title page of the patent, even though the Official Filing Receipt dated May 7, 2004, copy attached, properly lists the additional prior applications.

Patentees note that in accordance with 37 CFR §1.78(a)(2)(i), column 1 of the

patent includes a paragraph entitled "Cross Reference to Related Application" which contains a reference to each prior-filed filed application for which benefit is claimed, identifying it by application number and relationship. The paragraph of the patent appears below with the applications for which the one or more prior filed copending applications for which benefit is claimed being listed by serial number and relationship as represented by the underlining therein.

This is a continuation of U.S. application Ser. No. 10/160,022, filed Jun. 4, 2002, which is related to U.S. application Ser. No. 10/160,056, filed Jun. 4, 2002, which is related to U.S. application Ser. No. 09/732,292, filed Dec. 8, 2000, now U.S. Pat. No. 6,513,088, issued Jan. 28, 2002, which is related to U.S. application Ser.; No. 09/732,291, filed on the same date now U.S. Pat. No. 6,649,970, which is a continuation of U.S. application Ser. No. 09/265,363, filed Mar. 10, 1999 now U.S. Pat. No. 6,247,090, which is a continuation of U.S. application Ser. No. 08/833,346, filed Apr. 4, 1997, now U.S. Pat. No. 5,887,147, issued Mar. 23, 1999, which is a continuation of U.S. application Ser. No. 08/598,903, filed Feb. 9, 1996, now U.S. Pat. No. 5,652,845, issued Jul. 29, 1997, which is a continuation of U.S. application Ser. No. 08/190,848, filed Feb. 3, 1994, now abandoned, the subject matter of which is incorporated by reference herein.

Patentees submit that due to the wording of the above noted paragraph, the continuing chain of applications is ambiguous, noting that the term "related" has been utilized where the term "continuation" is more appropriate. Patentees submit that the attached copy of the Official Filing Receipt properly lists the "Domestic Priority data as claimed by applicant" wherein the prior applications are listed in the manner of the above-noted paragraph, and which has been annotated in the copy so that the applications are underlined in the manner of the above-noted paragraph. Thus, while all prior copending applications for which benefit is claimed is listed in the above-noted paragraph, in view of the ambiguity in the listing in the above-noted

paragraph, and in view of the attached Official Filing Receipt, this Certificate of Correction has been presented to separately set forth the continuation relationship and the other relationship in an unambiguous manner on the attached Form PTO/SB/44. Further, by the Certificate of Correction, the related US application data on the title page has also been clarified.

Patentee notes that correction by Certificate of Correction for clarifying the claim for priority under 35 USC 120 has been held to be appropriate. In re Schuurs & Van Weeman, 218 USPQ 443 (Comm'r Pat. 7 trademarks May 26, 1983).

The fee required under 37 CFR §1.20(a) is submitted herewith.

Granting of the request for Certificate of Correction is requested.

Please charge any shortage in the fees due in connection with the filing of this paper, including extension of time fees, to the deposit account of Antonelli, Terry, Stout & Kraus, LLP, Deposit Account No. 01-2135 (Case: 1484.32696CC8), and please credit any excess fees to such deposit account.

Respectfully submitted,
